

Multi Laser Cutting Machine Specialized in Acrylic & Stainless Steel!

SPECIFICATION

Wavelength(um)	10.6
Spot(M2)	<1.2
Power(W)	150
Beam Divergence (mrad)	2.5
Cooling Method	Water
Work Area (mm x mm)	1300 x 2500
Focus Length (mm)	50.8--127
Min Linewidth (mm)	0.3
Max Speed (m/min)	30
Graphic Format	PLT, AI, DXF, etc
Voltage	AC220V±10%
Machine Dimension (mm x mm x mm)	3530 X 2130 X 1180
Chiller (mm x mm x mm)	450 X 330 X 650
Machine Weight (kg)	1200
Temp (°C)	10-40
Humidity	≤80%, Non condensing

* Product specifications are subject to change without notice in advance .

Samples:

CMA1325C-G-A

MACHINE FEATURES:

- DC excited CO2 laser with low maintenance costs and long life;
- Large format precision cutting, widely applied to carbon steel, stainless steel, acrylic and MDF etc;
- Semi-flight optical fixed path compensation system, ensure consistency of the cutting spot effect;
- Non-contact metal servo system ensure the consistency of material cutting effect;
- High power double ventilation system maximizes suction of smoke, achieving clean cutting;
- Mainly applied in advertisement ,metal cutting and laser die cutting industries .
- Air pressure detection system avoid
- Window XP with touch screen system
