

www.infinitimesin.com

APPLICATION

Strong functioned, easy operation. sturdy, durable, reliable performance, reasonable price, rich functions, wide application; can be high efficiently used to batch process any wooden door and furniture, engraved pattern on wood and wooden molds for vacuum forming (thermoforming) machine etc.

VK1325

PERFORMANCE FEATURES

Mechanical and Electrical Design Optimization: configure high power water cooling, constant power spindle motor, adopt imported linear track. **High Speed Procession:** synchronization of processing curves and straight lines at high motion speed of 22m/min. **Massive Memory Capacity:** standard allocation of 128md, realized transmitting data by USB Flash Disk directly, which can save 30 processing files, any one can be pressed. **Quick Data Transmission:** USB interface, work without computer, not occupying computer resources. **Multi-Compatibility:** be compatible with popular CAD/CAM software: Type2/Artcam/Castmate/Proe/UG/Artgrave etc. **Easy Operation:** restore from power off, continuation on break points, anticipate working time, auto-feeding blades, user-friendly.

TECHNICAL SPECIFICATION

Product Model	VK 1325
Working Area	1300x2500x150mm
Spindle Motor	3KW inveter-driven constant power spindle motor cooled by water
Motion Speed	22000 mm/min
Rotation Speed of Spindle	24000 rpm
Engraving Tool	Φ 6mm Φ 12.7mm(optional)
Format Dictate	HPGL, G-code
Resolution	0.01mm

* Dust * Vacuum system (optional) * More power spindle motor can be mounted to your requirement.
* Above specification are subject to change without prior notice
