

SL-1290

Applicable To Process Material As Following:
Acrylic, PVC Board, Woody Products, Bamboo Ware, Crystal, Rubber, Other Plastic Products, Double Plate, PCB Board, Paper, Fur & Leather, Tiles etc.

Typical Application:
Sign Plate, Acrylic Products, Stamps, Custume Design Draft, Printing, Art Ware, Construction Moulds, Aero Plan / Navigation Model Art-crafts, Electric & Electronic Industries, etc.

Siwei Laser SW 1290

MORE EFFECTIVE WORK:
Due To Optimization Of Mechanical And Electric Designing, Speed Can Be Up To 2000mm/s

PERFECT STRUCTURE:
Configured With Laser Lense And Large Power Laser Tube To Ensure To Cut Acrylic Of 20mm Thickness In one Step.

CONVENIENT OPERATION:
Own Functions Of Restoring From Power Off Continuation On Break Point And Friendly Designing. Support Dictate Format To Transmit Data Directly From International Popular Software Such AS CorelDraw, AutoCAD, etc.

ADVANCE SYSTEM:
DSP Controlling System With Multi-function, Can Effectively Work On Plane Gradient Engraving By 360°, Cutting And Drilling Holes, etc.

| Model | SL-6040 | SL-9060 | SL-1290 | SL-1216 |
|------------------------------|---|---------------|----------------|-----------------|
| Engraving Size | 600mm x 400mm | 900mm x 600mm | 1200mm x 900mm | 1200mm x 1600mm |
| Power | 40W - 50W | 60W - 70W | 80W - 130W | 100W - 130W |
| Resolution | < 0.025mm | | | |
| Setting Accuracy | 0.1mm | | | |
| Repetition Accuracy | < 0.1mm | | | |
| Max. cutting speed | 200mm/sec | | | |
| Max. engraving speed | 2000mm/ sec | | | |
| Min. size of engraved letter | Chinese Letter Engraving 1.5mm, Cutting 3mm, English Engraving 0.8mm, (| | | |
| Max. Cutting Thickness | ≥ Acylic 10mm | ≥ Acylic 15mm | ≥ Acylic 20mm | |
| Dictate Format | (transmit files directly from Coreldraw, AutoCAD etc.) | | | |

INFINITI MESIN MALAYSIA SDN BHD (779665-K)

No. 5 & 7, Jalan Pahlawan 4/3, Bandar Mahkota Cheras, Section 3, 43200 Selangor Darul Ehsan, Malaysia.
